

RC 1000 Ultra

Expandable Bariatric Bed Frame

Setting the standard for bariatric patient care

To support the care of your most challenging patients, we offer the ultimate expandable width bed frame. The RC 1000 Ultra offers five function movement and can accommodate patients up to 1000 lbs. The simple to use pull pin system allows caregivers to quickly and easily expand the bed frame's width from 54" down to 37" to accommodate various patient girths and emergency transport through 40" door frames. Its sophisticated central lock and steering function provides safer movement of the RC 1000 Ultra thus reducing risk of patient or caregiver injury. One touch cardiac chair and Trendelenburg positioning comes standard on the RC 1000 Ultra. The intuitive, optional scale system supplies accurate and expedient weighing of patients up to 1000 lbs at the touch of a button. For the ultimate in bariatric patient comfort and caregiver convenience, select the RC 1000 Ultra for your facility.
